

Sight Word Flash Cards

Set 1

Try the Sight Word MEMORY GAME!

Print 2 pages of the SAME flash card sets onto cardstock paper.

Cut the cards out.

Mix the sets of flash cards together.

Lay them face down in a set of columns and rows.

Take turns trying to find the matching set.

Each person collects the cards they matched.

The person with the most matching sets when all the cards are picked up is the winner!

After your little learner is familiar with the current set of words, add new sight words, and remove familiar ones.

Challenge level increases as you add more words to the game.
